tg: @artemborisow

Product and project manager with 8 years in product and project roles: **B2B SaaS** (Calltouch), **media** (News Media Holding), client development (Rhino Digital). Grew trial-to-paid conversion by 40% and doubled product revenue in six months, launched a media product from scratch to 30k daily readers. Technically fluent (SQL, API integrations, BPMN), rolled out AI tools with unit economics in mind. I make data-driven decisions and can defend them in front of stakeholders.

EXPERIENCE

Performance marketing agency

AI Project Manager

Sep 2026 — present

- Run the agency's internal AI projects, from problem statement and specs to a working tool
- Connect media buying, analytics and engineering in one workflow

Own projects

AI tools and agent workflows

Oct 2025 — Sep 2026

- Agent knowledge base on the Claude Agent SDK: automatic compilation of material from work sessions, SQLite and Markdown storage, versioned in git
- Data collection and analysis from external sources with LLM processing and export to Google Sheets and Telegram (Python)

News Media Holding

Product Manager / Project Manager

Feb 2023 — Oct 2025 · 2 yrs 9 mos

Product: A media holding with 11 digital products: newsroom websites (Mash, Shot, Life, Zhizn, ACHBD, Livecorr), a CMS, a mobile app, special projects, chatbots.

Key results:

- Led the launch of the Zhizn newspaper website and CMS from scratch: product vision, positioning, strategy; team of 8 (engineering, design, QA) plus DevOps (CDN, caching) — **MVP shipped on deadline**
- Reached **30k daily readers** within 6 months by diversifying traffic sources
- Researched the AI tool market, rolled out a spellchecker and a fact checker — **proofreading of long reads became 2x faster**
- Initiated an SEO team — **organic traffic share grew from 10% to 20%**
- Built DataLens dashboards — **reporting became 10x faster** (from a full working day to 5-10 minutes)

Responsibilities:

- Built and prioritized the backlog with RICE, defended decisions in front of stakeholders
- Wrote user stories, functional requirements and specs; took products from idea to release
- Managed 3 scrum teams in parallel (avg. 6 people: dailies, grooming, retros) plus 6 outsourced projects
- Made the data-backed case for mobile-first (95% mobile traffic) against stakeholders' initial position
- Improved CMS UX based on user interviews — articles per author per day grew by ~20%
- Made A/B testing of partner CPM ad units routine to maximize ad revenue

Rhino Digital

Product Manager / Project Manager

May 2021 — Nov 2022 · 1 yr 7 mos

Product: Custom product development, full cycle from idea to a running business.

Key results:

- Relaunched the frontend of a housing booking service to obtain Skolkovo residency (successful)

Responsibilities:

- Led projects on both the business and engineering side: full discovery, CJM, prototypes, backend logic
- Managed a team of 7 (developers, designers, copywriter) from prototype to MVP
